25 November 2009

Additional Points From NetComm's Annual General Meeting

To ensure the market is kept fully informed, the Board of NetComm Limited (ASX: NTC) felt that the following points that were raised in response to questions at today's Annual General Meeting should be released to ASX:

- NetComm confirmed that telecommunications carriers from North America, Middle East and Africa were being targeted as they best appreciated the company's value proposition
- The Managing Director, David Stewart, confirmed that NetComm had the production capacity to cope with any significant planned additional increase in volumes
- The design and manufacturing of NetComm's products are continually reviewed to reduce unit costs and improve performance, suitability for the market and user acceptance
- The acquisitions of Call Direct and C10 were providing a valuable contribution to the company's future growth – with a major carrier recently extending its supply agreement with C10
- The company is intending to produce a quarterly newsletter to ensure all shareholders are regularly updated on latest developments

At the conclusion of the meeting, the company also demonstrated some its latest 3G products including:

- The world's first HSPA+ router that Telstra launched yesterday as the BigPond Elite Wireless Broadband Network Gateway
- MyZone – a sleek, pocket sized mobile hotspot that NetComm will start delivering in 2010
