## Shareholder News

I am writing to introduce myself as the recently elected Chairman of the Board of Directors of NetComm Wireless. As you may know, this is an extremely exciting time for NetComm Wireless as we are uniquely placed to play a major role in the roll-out of Machine-to-Machine (M2M) technologies around the globe.

I am proud of this appointment, and I'm particularly pleased to be chairing the new Investor Relations Committee. As well as working towards increasing our profile and broadening the market's understanding of our company, I would like to write regular progress updates to keep you posted on the very latest news as it unfolds.

With a number of strategic partnerships and supply deals in the pipeline, 2013 is shaping up to be a tremendous year for NetComm Wireless and I look forward to applying my extensive telecommunications experience to our continued international expansion.

NetComm Wireless is a dynamic company that is growing at an exceptional rate so as well as forwarding quarterly updates via the Insights shareholder newsletter, I would like to write to you about events as they develop and hope that you will find this information useful.

I'd like to take this opportunity to thank you for your support.

Kind Regards,  
**Justin Milne**  
Chairman
